NASA SEWP VI — OVERVIEW

NASA SEWP VI – The NASA SEWP (Solutions for Enterprise-Wide Procurement), pronounced "soup", provides the latest Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services for all Federal Agencies and their approved contractors.

Created in 1993, SEWP I was the first Government-Wide Acquisition Contract (GWAC) in the federal acquisition space. Originally, the contract vehicle provided only technology products for NASA and all other agencies. SEWP has continually evolved over the past 30 years, expanding its scope to meet the requests of its customers.

The SEWP vehicle represents acquisition innovation within the Federal Government. The program is self-funded through usage fees (0.34%) and provides all Federal agencies with acquisition support - more than 50,000 orders a year.

FAIR OPPORTUNITY

FAR 16.505(b) (1) provides that each contractor shall be given fair opportunity to be considered for each order exceeding \$10,000 and issued under multiple award contracts. The FAR states that the method to obtain fair opportunity is at the discretion of the Contracting Officer (CO) and document the rationale for placement and price of each order.

Using the SEWP online Quote Request Tool is their commended method to assist in this activity and to augment the required decision documentation. The SEWP Quote Request Tool (QRT) will automatically include the Contract Holders within a selected Group or based on a suggested source.

WHAT'S IN SCOPE FOR SEWP VI?

SEWP is designed to provide a broad suite of Information Technology, Communication and Audio Visual (ITC / AV) solutions and services. Technology is ever-evolving and for that reason SEWP's processes enable its Contract Holders to add new commercial technology and IT services to their contract daily, as requested by our customers.

The focus of SEWP is on the full suite of technology offerings that simplify Governmental access and Industry offerings across the entire ITC/AV solutions and services landscape.

SEWP is composed of three (3) scope categories detailed below. If you would like SEWP to determine if your requirement is within scope of the SEWP VI contract, please send an overview and/or requirements summary to help@sewp.nasa.gov and we will quickly review and provide feedback.

Verium, LLC was awarded contracts in Categories B and C based on scope.

SEWP VI SCOPE CATEGORIES

Category A - ITC/AV Solutions (NOT a Verium Approved Contracting Vehicle)

Category B - Enterprise-Wide ITC/AV Service Solutions

Category C - Mission-Based ITC/AV Service Solutions

Verium, LLC's awarded scope is reflected in Categories B and C above.

ORDERING PROCESS

The internal ordering process of each Agency varies. The process and accompanying forms for Purchase Requests (PR) and Delivery Orders (DO) that are issued against a SEWP contract is defined by the issuing Agency, not the NASA SEWP Program Management Office (PMO). The typical process is for an end-user to determine a requirement and generate a Purchase Request (PR). Additionally, the SEWP contract can be utilized to establish a Blanket Purchase Agreement with a contact holder using the same ordering processes.

The PR along with any necessary funding information is sent to that Agency's procurement Office, which results in the issuance of a DO.

Any valid Federal Agency DO form and the associated Delivery Order number may be used. The NASA SEWP Program Management Office (PMO) does not issue DOs - these must be issued through the issuing Agency's Procurement Office.

The SEWP Program Management Office (PMO) reviews, processes and tracks issued DOs and forwards them to the Contract Holder(s).

Some Agencies have special requirements for issuing IT DOs. It is the Issuing Agency's Contracting Officers' (COs/KOs) responsibility to be aware of any Agency-specific policies regarding issuing orders via an existing contract vehicle and Government-Wide Acquisition Contracts.

There are no requirements under the SEWP Contracts for issuing Agencies to use other intermediary procurement Offices, except as directed through their own internal policies.

QUOTE REQUEST TYPES

Request For Quote (RFQ): Contains specific requirements. Generally, results in an award.

Request For Information (RFI): General in nature, does not have specific requirements.

Market Research Request (MRR): Customer is researching specific requirements.

ORDER MODIFICATIONS & ADMINISTRATIVE HANDLING FEE

If modifications are made to any order, these modifications must also route through the SEWP Program Management Office (PMO).

An Administrative Handling Fee of 0.34% of the total price of the delivery order will be applied to all orders under the SEWP VI contracts.
